EPA conducted a review of NPDES rules and statute revisions submitted to EPA in March of this year. The conference call will focus on questions developed by EPA related to our review. The conference call will also provide an opportunity for discussion and response to these questions that will assist EPA in making our determination as to whether the submissions resolve the issues identified in the legal authority review. Attached for your reference is a copy of the questions previously emailed on 9/6/2016. Do to possible time constraints the stormwater related questions will not be discussed during the call. Please check your calendars for a Wisconsin LAR conference call to address the stormwater questions on Thursday, September 22, 2016. Please forward any questions regarding this matter to Quintin White, (312) 886-0135.
